MISSION STATEMENT

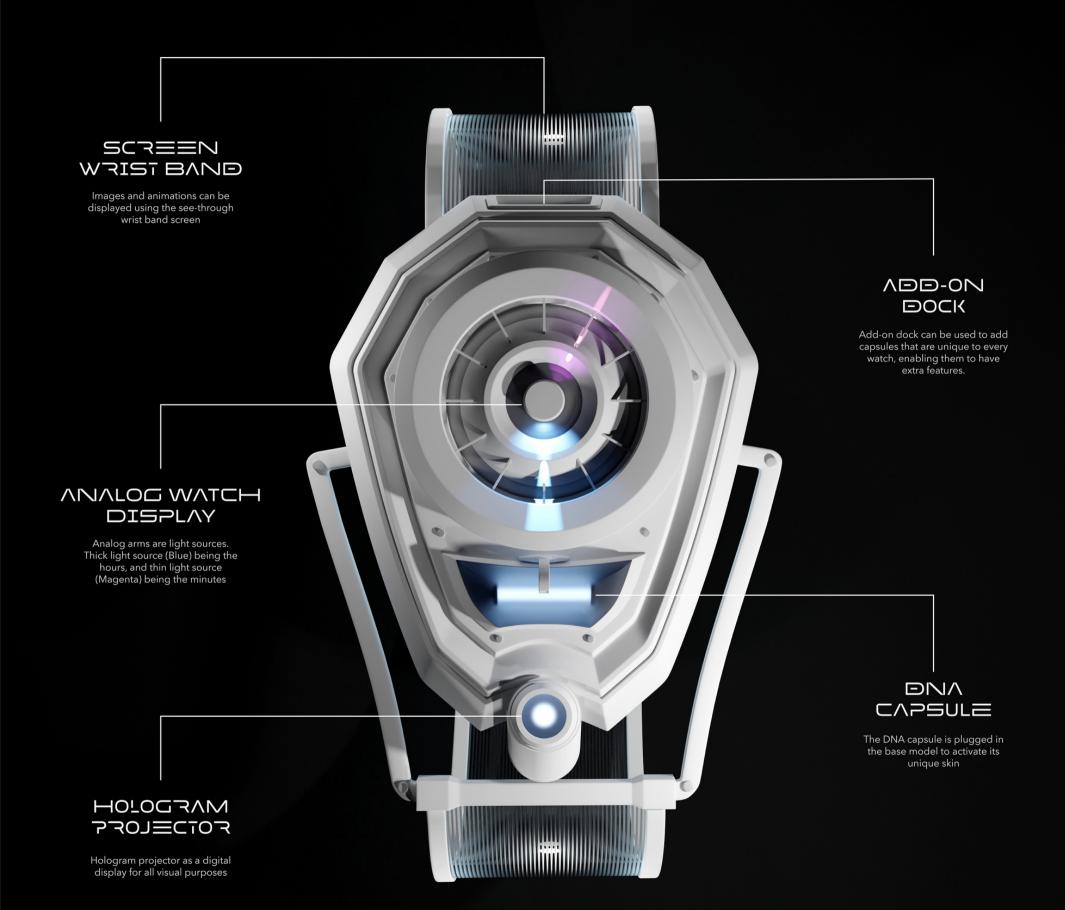

At Xioverse, we're on a mission to redefine digital ownership & interactions, blending the world of augmented reality with the dynamic and decentralized capabilities of blockchain technology.

VISION

Provide Immersive Experiences through virtual imaginative watches transcending the Digital Realm.

EXPLORE THE MODEL X WATCH

The model X watch has 4 attributes:

- a film strap
- a dial
- a holographic display
- an add on dock

All set through the DNA capsule which can be dismantled and reassembled by holders

CRAFT YOUR NARRATIVE: PERSONALIZE AND PLAY WITH MODEL X WATCHES

Attributes for model X watches are all 3D designed, rigged and animated for Unity around different themes from Iconic eras to pop culture.

Holders can craft their own watch by combining different attributes into a single DNA capsule and experience their watch in augmented reality through our novelty app

ON-CHAIN ACTIONS, OFF-THE-CHARTS ENGAGEMENT

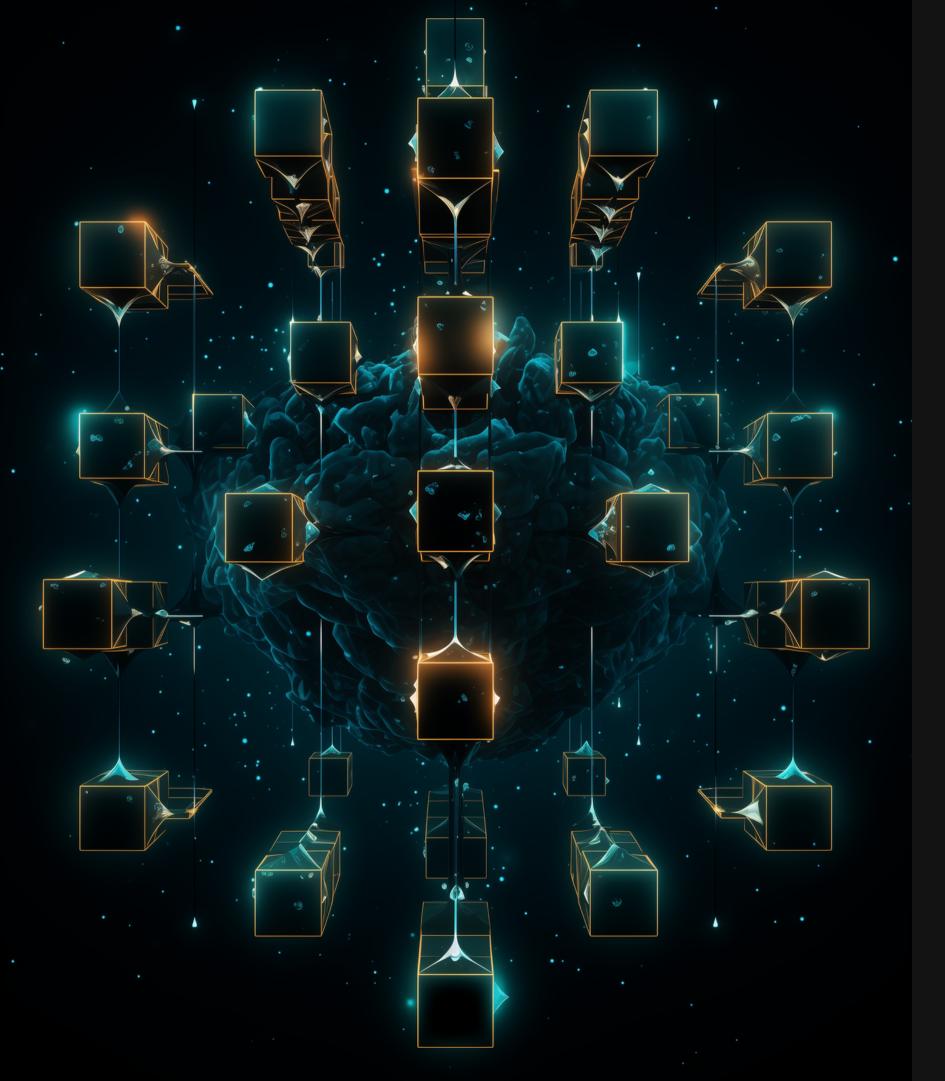

- Personalize your Model X Watch on the blockchain, ensuring transparency and security.
- Every on-chain action contributes to a vibrant community, creating a lasting record of engagement.
- Record of ownership with dynamic attribute list for compatibility across platforms

LEVEL UP YOUR EXPERIENCE: MODEL X GAMING INTEGRATION

- Downloadable 3D attribute object files allow asset integration into games through proper legal pipelines
- Xioverse team support for game asset optimization
- Metadata attribute list unlocks in-game watch use with wallet authentication

SEAMLESS GAMING ON BLOCKCHAIN— EMPOWERING AR COLLECTIBLES

- Seamless gaming experiences for AR collectibles
- Fast and low-cost transactions on selected network
- Enhanced scalability for optimal performance
- Positioning Xioverse as a leader in blockchain innovation

ELEVATE USER ENGAGEMENT: AR COLLECTIBLES WITH AN ADDED GAMING EDGE

- Unique Engagement Boost: Xioverse's
 AR collectibles introduce novel and immersive interactions, attracting a diverse user base
- Extended User Sessions: Engaging gaming elements encourage prolonged user interactions, fostering a vibrant community.

 Network Activity Surge: Xioverse drives increased on-chain activities, contributing to the ecosystem's growth

• Unmatched Personalization: Users stay longer, creating, customizing, and trading assets, elevating overall platform engagement

PLAY AND PROFIT: MONETIZE PERSONALIZED AR COLLECTIBLES AND GAMING ASSETS

Non-Competitive Presence:

Xioverse's unique virtual watches, as exclusive gaming assets, pose no threat to existing in-game items, fostering a collaborative environment for seamless adoption by gaming studios.

- New revenue streams for gaming studios:
 - Xioverse's rental smart contracts send a fee from rent to the game developer's wallet, watches are being rented over
- Play & earn: Holders upgrade watch tier as they play and rent out their watch to other gamers

FOSTERING UNITY IN DIVERSITY – TAILORED AR EXPERIENCES FOR PARTNER COMMUNITIES

 Xioverse actively looks to collaborate with diverse communities, creating custom DNA capsules that encapsulate their unique themes and identities This collaborative approach ensures a rich tapestry of AR collectibles, reflecting the distinct characteristics and values of each partnered community.

VISION BOARD

Pre-mint

- Release of 200 PFPs granting holders early access to all Xioverse mints, discounts on select collections, gifts and awarding them creator passes allowing them to submit their own attribute designs every year contributing to the creator economy
- Launch of the Xioverse AR App
- Release of 40,000 Model X NFT watches that can be dismantled into 160,000 NFT attributes expanded on every year

VISION BOARD

Post-mint

- Release of limited edition signature artist watch series with immersive VR experiences transporting holders to custom designed vault rooms and gaming experience
- Auctioning off the largest artistic virtual clock, a collaboration between numerous artists to further cement Xioverse in the web3 watch space.

VISION BOARD

Long term vision

- Collaboration with watch brands through our AR technology to create a hybrid Augmented Reality/Physical Xioverse watch with integrated RFID chip for unlocking an NFT certificate of authenticity & projecting a virtual layer on top of the watch, complementing the physical design
- Assisting in building an augmented reality metaverse, providing immersive experiences for holders, mixing reality with the endless possibilities virtual reality offers.

THE CREATOR

ELVIS MOUNZER

Visionary, Sci-Fi and fantasy writer, architect of ethereal worlds and weaver of wondrous dreams. Passionate for storytelling and virtual dimensions.

THE CO-CREATOR

PATRICK GOLDSTEIN

Wild card and people's choice. Enchanter of hearts, crazy in mind and crazier in soul. Acutely perceptive, with a touch of almightiness.

SCARLET QINK

Quirky, meticulous, wild, elegant, rooted, vagabond, a free spirit with fairy dust sprinkles, sprouting excellence in her footsteps.

MUSIC COMPOSER

ZEID HAMDAN

Critically acclaimed music producer with a magic touch and a heart of gold. However his soul sways, notes follow in an enchanting whirl, mesmerizing spirits in an ethereal

CHIEF TECHNOLOGY OFFICER

MAHMOUD DAGHER

Genius hidden in a humble man's clothing. Armed with his sense of humor and outstanding knowledge. Defi and Blockchain fanatic, always thriving for the advancement of human lives.

SOCIAL MEDIA

BYND ome team of

An awesome team of friendly and knowledgeable individuals handling social media with extensive experience in Al to generate impressive content.

AHMAD OUEIDAT

Innovator seeking new dimensions

Concept Artist

Joe Beain

Design guru and art director

SENIOR ARTIST RAMY HANNA

Producer and 3D Artist

SENIOR ARTIST ANDREW TOKATLY

3D Artist

AOUN 2D Artist

PETER

JUNIOR ARTIST RAYANE FARAH

3D Artist
